The organizer

Arts, Science and Commerce College, Indapur, Dist. Pune is run by *Indapur Taluka Shikshan Prasarak Mandal*. It is an educational institution which was established in 1938. College is one of the leading academic institutions at the south-east region of the Pune district. Indapur is a town located on National Highway No. 65, 135 km away from Pune city. Indapur has a historical significance, the record of history shows that it was the land of *Jahagiri* of Late *Malojiraje Bhosale*; he was the grandfather of *Chhatrapati Shivaji Maharaj*. There is a monument of *Malojiraje Bhosale*, close to *Indreshwar Temple*. *Ujjani Dam* is 1 km away from this place, constructed on *Bhima River*. This college is located close on the bank of *Bhima river* i. e. near *Ujjani Dam*. This is a dam affected area in which 22 villages have been displaced due to the construction of dam. This college was established in 1972. It has become a well-known academic centre within a short period of time. It has received best college award, best principal award, best innovative teacher award, best programme officer award, best student award etc. The college has created many brilliant and outstanding students who have been discharging their responsibilities in different posts in the Government and private sectors. It has taken maximum efforts in order to inculcate academic excellence and global competence for facing various challenges.

Theme of the Refresher Course

Major theme of the refresher course is Community Engagement. With the rise in deepening and expanding public engagement globally, the importance of community engagement has become pivotal for well-functioning, twenty-first century democracies. Constructive relationships between communities and the institutions of government make community engagement not only desirable, but necessary and viable as it is likely to lead to more equitable, sustainable public decisions and improve the liveability of local communities. This is why community engagement is important for individuals, public and governments alike.

Where traditional, executive-led approaches are ineffective, community engagement is important in its collaborative approach to the design and/or delivery of services. For the complexity of issues in any given community – where traditional approaches have been ineffective if non-inclusive in the extreme – community engagement enables better understanding of communities' needs and aspirations.

Sub-themes of the Refresher Course

- Community and their Characteristics
